

Matthew Humble

An enthusiastic and hardworking third-year BSc Computer Science student with excellent verbal and written communication skills who is always striving to be the hardest worker in the room. "Working as part of a team is vital to success."

EXPERIENCE

Tutor Doctor — Private Tutor

February 2023 - Present

Regularly planning and delivering engaging and informative maths and geography sessions for groups and individual students, both in person and online, in preparation for their GCSE and A-Level exams.

Providing extra support such as work to do alone with the option to email out of hours to answer any questions. I can build strong rapport with numerous new students to increase confidence and engagement to achieve the best results.

After my short time working with Tutor Doctor in West Hull, I was referred to work online within the Cambridge branch. I provide one-to-one and group sessions to support secondary school pupils in maths, complementing their current lessons and improving their attainment.

A-Level Student Quote: "Matt has helped me immensely in my tutoring. Before he started, I was at Grade C in geography, and after my last mocks, he helped me get an A*. He's always been kind, helpful, extremely knowledgeable, and passionate about helping me achieve the best I can do."

The Barn at Willerby Hill — Wedding Event Team Member

June 2024 - November 2024

Regularly worked long shifts as part of a small team to host weddings and private social events, playing a versatile role throughout the day. Working the bar throughout the day and night, handling transactions and serving a high volume of guests alcoholic and non-alcoholic beverages. Receiving orders and managing the supply chain of late-night food preparation and serving to guests. Keeping the venue tidy and presentable, collecting empty glasses and clearing decor at all stages of the event.

Charity Event — Event Team Member

May 2023 & May 2024

In preparation, worked as a team to set up the venue to the highest standard and cleanliness in the early hours before clients arrived.

Handled the exchange of money and served food and beverages to clients throughout the day, acting as a bridge between front and back-of-house teams. While also supporting food preparation during the busiest hours.

Overall, the event raised over £8,000, which will go towards Dove House Hospice, Hessle Community Centre, All Saints Church Tower Appeal, Hessle & Anlaby Food Banks, and more.

Home Farm, Whitbread PLC — Kitchen Team Member

September 2021 - September 2022

Worked across several stations, often simultaneously, in the kitchen. From pot washing, progressing to preparing a range of dishes across the menu, including support for the main course.

Demonstrated a high level of communication to work with multiple teams on shift and excellent multitasking skills to simultaneously manage various kitchen stations. Keeping a good work ethic and resilience through our busiest periods to provide the best experience for every customer by keeping service fast but maintaining a high level of quality.

EDUCATION

MSc Artificial Intelligence and Data Science – University of Hull

September 2025 - June 2026

BSc Computer Science — University of Hull

September 2022 - April 2025

Carrying out in-depth research on AI prediction models in sport performance. Collecting data and harnessing machine learning models to predict the performance of athletes in specific swimming events. Displayed using a dynamic dashboard.

Secured a high level of understanding and practical use of C# and C++, learning different programming concepts to solve problems efficiently.

Created several AI machine-learning models to solve prediction problems, leveraging large datasets of statistics and images. Python

Created a server that can listen on a network for requests, which will query a third-normalised database and return a response to the client. C#

Building essential teamwork skills through group projects, further developing skills in communication and group management techniques used in waterfall and agile software development.

A-Levels — Hessle Sixth Form

September 2020 - June 2022

3 A-Levels: Geography, Computer Science and Maths. (A, B, B)

Created a virtual stocks and shares market by web scraping current real-world stock prices and historical data to develop analytical candlestick charts. C#

GCSEs — Hessle High School

September 2015 - June 2020

9 GCSEs: Grade 8-6 including Maths, English Lit & Lang, Biology, Chemistry, Physics, Geography, Computer Science, Sociology.

Interests & Activities

Ultra Runner & Gym Member

2020 - Present

Long-term gym member focusing on strength and training to compete in an ultra tour race, running a combined total of 60 miles across two days on the Isle of Arran in April 2026.

Developing discipline and perseverance. Striving to challenge myself and achieve extraordinary feats, bettering myself every day.

UH Sharks American Football Team — University of Hull

September 2022 - Present

President 2025/2026 Season

Manage seven committee members to ensure the smooth running of day-to-day activities. Ensure all tasks have been completed promptly and support all committee members to complete tasks to the highest level. Be a responsible and friendly representative of the club around the university.

Treasurer 2024/2025 Season

Manages the team's yearly budget, outreach to local businesses to secure club sponsorships, and works with other committee members to finance team events and social activities.

Starting team member and played the role of captain in my first season. Demonstrating I am a hard-working and dedicated team member who is valued highly only months into joining the team and the sport, giving me the opportunity to lead by example.
